

FIRE AND EVACUATION

Hose lines and fire attack techniques

DURATION

1 day

GROUP SIZE

6 to 12 people

VENUE

At your site

VALIDATION

KABUTO certificate

Who it is for

Site fire response team

Prerequisites

Medical fitness for work and fitness to wear the equipment

Learning objectives

By the end of the course, the trainee is able to:

- Run out a hose line from the water supply to the attack
- Set flow rate and nozzle pattern according to the type of fire
- Advance in pairs, protect your partner and withdraw
- Cool the walls and the vessels at risk

Content

- Running out a hose line, from the water supply to the attack
- Setting flow rate and nozzle pattern, saving water
- Advancing in pairs, protecting your partner, withdrawal
- Cooling walls and tanks
- Exercises on your own installations and with your own equipment

Teaching methods and resources

Face-to-face training, on your site, in French or in English. Short theory inputs and scenarios on your facilities.

Documents issued

Named certificate of attendance and assessment sheet

Assessment

Continuous assessment through scenarios, plus an individual sheet filled in step by step and given to the trainee.

Trainer

A trainer from professional emergency services: nurse, firefighter or military. Their identity, qualifications and professional liability certificate are sent to you before the session.

Lead time

Quote within 48 working hours. The date is then set with you, according to our availability and your production constraints.

Price

On quotation, depending on group size, location and dates. Reply within 48 working hours.

Accessibility

Our courses are open to people with disabilities. The adjustments needed are studied case by case before the session with our disability officer, reachable on 06 51 36 51 97.

Training for companies and organisations only, always delivered at the client's site.
